JSTOR is a digital library of academic journals, books, and primary source objects. JSTOR helps people discover, use, and build upon a wide range of content through a powerful research and teaching platform, and preserves this content for future generations. JSTOR is part of ITHAKA, a not-for-profit organization that also includes Ithaka S+R and Portico. For more information about JSTOR, please contact support@jstor.org.

A Relation

Of the Raining of Ashes, in the Archipelago, upon the Eruption of Mount Vesuvius, some years ago.

This came but lately to hand from that knowing person, Mr. *Henry Robinson*; and was thought fit to be now inserted here, that it might not be lost, though it hath hapned above 30 years ago. It was contained in a Letter, (subscribed by Capt. *Will. Baddy*) in these words:

THe 6th. of *December* 1631, being in the Gulf of *Volo*, riding at Anchor, about ten of the Clock that Night, it began to rain Sand or Ashes, and continued till two of the Clock the next Morning. It was about two inches thick on the Deck, so that we cast it over board with Shovels, as we did Snow the day before: The quantity of a Bushel we brought home, and presented to several Friends*, especially to the Masters of *Trinity House*. There was in our Company, Capt. *John Wilds* Commander of the *Dragon*, and Capt. *Anthony Watts*, Commander of the *Elisabeth* and *Dorcas*. There was no Wind stirring, when these Ashes fell, it did not fall onely in the places, where we were, but likewise in other parts, as Ships were coming from *St. John D' Acre* to our Port; they being at that time a hundred Leagues from us. We compared the Ashes together, and found them both one. If you desire to see the Ashes, let me know.

* Some of these Ashes were produced by Mr. *John Evelyn*, before the *Royal Society*.

An Extract

Of a Letter not long since written from Rome, rectifying the Relation of Salamanders living in Fire.

This came from that Expert Anatomist *M. Steno*, to Dr. *Croon*; *Videl*. That a Knight called *Corvini*, had assured him, that, having cast a Salamander, brought him out of the *Indies*, into the Fire, the Animal thereupon swell'd presently, and then vomited store of thick slimy matter, which did put out the neighbouring Coals, to which the Salamander retired immediately, putting them out again in the same manner, as soon as they re-
